

Softwares and Editors

Buzzoni, De Bastiani, Peratello

Please bring your own laptop to the lecture and make sure that you have the following softwares and materials downloaded and installed or stored in the appropriate directory at the latest by the morning of Tuesday 7th July.

Editors and softwares: instructions

EVT

- Download **EVT 2 Beta** folder by clicking on this link: <https://github.com/evt-project/evt-viewer/releases/download/evt2-beta2.1/evt2-beta2.1.zip>
- **Unzip** the folder and **save** it on your **Desktop**

VISUAL STUDIO CODE

- Download **Visual Studio Code** to work with EVT: <https://code.visualstudio.com/download>
- Add **Scholarly XML** and **Live Server** (or Five Server) extensions ([here](#) a guide on how to do it.)

OXYGEN XML EDITOR

- **Download Oxygen XML editor, v. 26** (or 26.1) from the following link:
https://www.oxygenxml.com/xml_editor/software_archive_editor.html
- After having installed Oxygen, the wizard will ask you to provide a licence key. **Copy and paste the following licence key in the textbox provided** by the wizard (in case you have doubts, here you find some documentation:
<https://www.oxygenxml.com/doc/versions/28.1/ug-editor/>)
